Dear Governor Cooper:

Duke and Dominion has NOT proven that the Atlantic Coast Pipeline project is for public use or for the good of the citizens of NC. Please don't let them take private citizen's land of dreams for the profits of a few people. You already know the negative health and environmental impacts of a pipeline of this magnitude. This pipeline will add to the INJUSTICE for thousands of African Americans who are currently being assaulted with other polluting industries. The ACP and FERC has totally ignored the cumulative impacts on these communities. If NC gives the ACP a permit they too will be responsible for the hundreds of lives that will be negatively impacted. We know Duke and Dominion's money has bought access to our politicians. I hope you do something that is UNPOPULAR and NOT politically correct, literally have the passion to stand up and do what is right for the people. Taking property through eminent is un-American and just plain wrong! **Do NOT approve 401 permit to ACP.**

Thanks
